Callback Telephone Numbers & E-mail Addresses

When placing reservations, we request that you provide the passenger's cell number and e-mail address. This will both ensure passenger contact and expedited resolution should a service issue arise.

1. **Call back phone number:** Preferably a cell phone number. NOTE: During inclement weather or emergency conditions providing a call back number is mandatory
2. **E-mail addresses:** Elite's proprietary dispatch software, SmartCab®, can generate e-mail confirmations to 2 addresses, the second of which being optional. We recommend that the first (primary) e-mail should belong to the passenger and the second to an assistant or the person placing the call.
3. **Normal response time for cars:**
 - In Manhattan is within 10-15 minutes of the order.
 - Normal response time at the three major airports averages 10 minutes.

Onsite Dispatch Services

- For qualified high-volume customers Elite offers On Site Dispatcher service.
- Elite on Site Dispatchers are present at all major sporting venues, i.e., Yankees Stadium, Citifield (Shea Stadium) and US Open Tennis Stadium in Flushing Meadows or MetLife Stadium in the Meadowlands.

Circling, A Manhattan Service Alert

Because of the ongoing NYC DOT zero tolerance traffic enforcement regulations and No Standing restrictions throughout the borough, drivers are often forced to circle the block. Based on GPS validation, drivers are considered on time when circling. Simply view the map on the Elite Limousine App to locate your vehicle. Or if you haven't yet downloaded the App, please call 800-472-1123; Our Dispatch Room personnel will assist you using the same live GPS tracking available on your Smartphone.

Tollminator™ EZ Pass Rates

100% Accurate Billing

Each Elite vehicle is equipped with an Android 8.4 Inch stand mounted tablet integrated with live GPS tracking and SmartCab®, Elite's proprietary dispatch and billing system with our proprietary Tollminator® software.

- Tollminator™ is Elite's automated toll monitor that automatically applies E-Z Pass toll rates.
- This software audits and records only tolls actually incurred in providing service.
- Eliminates any possible confusion in toll charges as GPS tracking provides guaranteed accuracy on time and location.

Benefits for the clients:

- 100% automated fleet management.
- For dispatch eligibility, vehicles must be satellite recognized within pre-defined zones to ensure on time performance, minimized occurrence of No Shows and eliminate Waiting Time issues.
- GPS footprints for time and location are recorded at 20 second intervals during the trip and are the basis upon which invoicing is generated.
- In 1991, Elite developed, the still only, stop pricing algorithm to calculate multiple stops in a consistently accurate way. Necessary for in car settlement, this was a key requirement for elimination of paper vouchers.
- All account validation is captured at point of reservation.
- Tolls based on E-Z Pass rates are added by Tollminator™ software.
- Starting in 2009 as part of our Go Green initiatives Elite began offering voucher-less service and electronic billing.
- At completion of the trip all data is frozen. No changes can be made.
- Added benefit for our clients is Elite's 100% accurate billing guarantee.
- For clients using the Elite App complete trip pricing is immediately available on their Smartphone.
- For other passengers fully priced trip receipts are forwarded by e-mail.
- Since 2010 as stipulated in the Elite Transportation Agreement and agreed to by every customer, the use of recorded GPS time and vehicle location data is accepted as the basis for resolving any billing disputes.

The Rate Book — General Price Guidelines

Elite Rates are based on point-to-point distance and the travel time between your pick-up and destination.

- Any waiting time and stops are additional. All ancillary charges such as tolls, taxes and service charges are added at the end.
- Cars may be hired by the hour as well. These hires are subject to a minimum number of hours depending upon the vehicle.

The Rate Book

The zone-to-zone prices published on this rate book apply to our Executive and Business Class Sedan Service. Rates for SUV service are a multiple of those rates. General economic changes may require that rate schedules be revised. Elite Limousine's standard operating procedure is to post notice of any rate changes 15-30 days in advance of the changes taking effect. Typographical errors are the exception, and these are subject to immediate change.

For prices not shown in book, call Elite Limousine at 718-472-2300 or visit www.eliteny.com.

The When and Why of Stops

Not all stops are defined or priced the same. Most are billable. Some are not.

- Any deviation from the direct route to some intermediate point that results in increased distance traveled and/or additional time required to complete the trip constitutes a billable stop.
- Courtesy Stops are not billable.

Courtesy stop is defined as:

- A quick personal stop (normally 5 minutes or less) directly en route to buy coffee or newspaper, etc.
- Elite drivers provide courtesy stops to our customers at no charge.

No Free Jump:

- A passenger getting out of the car at any place other than the final destination may trigger a stop charge.

Stop Pricing Guidelines:

Except for Elite, the NYC Black Car Industry generally overstates stop pricing by use of full zone-to-zone calculations.

- Since 1990 Elite has employed our own proprietary algorithm using a vector matrix developed in house to calculate prices based on actual distance traveled.
- Both standard Elite rates and stop pricing is available online at <http://www.eliteny.com>.
- A stop en route is priced differently than a stop not in en route. Stops not en route incur price adjustments for time and distance.
- In Manhattan: Stops begin at \$15.
- In the Outer Boroughs: Stops begin at \$25.
- Out of town stops begin at \$30 for stops in the same town.
- Out of town stops en-route are 50% of the rates to the town but no more than \$50 per stop.
- Stop for SUV service is 1.4 times Sedan's stop price.

Cancellations Explained

If we have a call back phone number: We will hold the car for 25 minutes and then call the passenger. If contact is made, we will follow passenger instructions and account policy. If no contact is made, we will hold the car for an additional 5 minutes and then give a no show to the driver.

If we do not have a phone number: We will hold the car 25 minutes from time of dispatch.

To authorize the car waiting longer than 25 minutes: Guaranteed wait may be arranged at any time by calling Elite or on your App.

Sports Arena: Cars are held for 30 minutes after conclusion of event at a stadium or arena.

Multiple Cars dispatch policy involving SUV:

1. If 2 Sedans are requested by the customer, and one Sedan and one SUV is sent and all passengers get in the SUV, and Sedan is given a No-Show/Cancellation, Sedan will be charged as a billable cancellation/no-show, and SUV will be billed at SUV rate.
2. If a regular vehicle is requested by the passenger but more than 4 passengers get into a vehicle, price will be charged according to SUV rates.

Most of the busy hubs worldwide follow a 6 hours cancellation policy. Ancillary Charges

Tolls and Parking

Tolls necessary in the successful completion of requested service are additional as are any parking charges similarly incurred.

- On trips to or from destinations where the driver has no direct alternate toll free route to return all round-trip tolls are billable. By industry definition “an alternate toll-free route” should not add time nor distance when compared to the normal toll route.
- Addition of return tolls is standard for all trips to or from Far Rockaway, Staten Island, New Jersey, Pennsylvania and any locations requiring transverse of a Port Authority of NY & NJ Bridge or tunnel.
- Parking charges are normally incurred on:
 1. Inside Meet & Greet at airports; and
 2. On package pickup or deliveries when required.

Reservation Charge — None

Elite accepts reservations 24 hours a day, 7 days a week. There is no additional charge for placing a reservation

Out of Town Pickup Charge — None

No additional charge even when the pickup is out-of-town.

Out of Town Pricing

We use proprietary software based on actual location to fairly price trips originating both outside the five boroughs then returning to NYC, when the trip originates and ends out-of-town with or without multiple out-of-town stops..

Package Surcharge: \$15

Fuel Surcharge

There is no fuel surcharge unless the weekly U.S. Retail Prices (Regular grade) as posted on the Internet at: <http://www.eia.gov/petroleum/gasdiesel/> is \$3.00 or more.

If the Average Unleaded Gas Cost is:	Fuel Surcharge	If the Average Unleaded Gas Cost is:	Fuel Surcharge

\$3.00 to \$5.00	2.5 % of the fare per ride	\$7.00 to \$7.99	7.5 % of the fare per ride

Child Seats

All 50 states and the District of Columbia require child safety seats for infants and children fitting specific criteria.

As of January 2015 in New York failure to comply results in mandatory fine and points against the vehicle operator’s license.

Two options are available:

1. The passenger may elect to bring their own safety seat; or
2. Passengers may place future reservations requesting a choice of child, infant or toddler seats.

Ancillary Charges

NYBCOIF 3% SURCHARGE

On May 25, 1999 Governor Pataki signed into law Chapter 49 of the Laws of 1999 establishing the New York Black Car Operator's Injury Compensation Fund, Inc. (the "Fund"). This Law requires as of 10/01/99 all black car and limousine dispatch bases providing service in NYS to separately charge, collect and remit to the Fund a surcharge of 2% on the gross billings for services provided. Proceeds of the surcharge are administered by the Fund to secure the payment of workers compensation claims made by drivers who are injured while providing service in this industry. On 10/03/2020 the Fund surcharge was increased to 3%.

NEW YORK INTRASTATE SALES TAX

As of June 1, 2009 New York State Department of Taxation and Finance, under section TSB-M-09 (2) s, imposed state and local sales tax to "transportation services provided using limousines, black cars and certain other motor vehicles with a driver." The sales tax applies only to trips that begin, remain, and end within New York State.

NEW YORK CITY CONGESTION SURCHARGE

As of January 1, 2019 the rules which all Black Car providers are required to enforce a \$2.75 NYC Congestion pricing surcharge as outlined on <https://www.tax.ny.gov/bus/cs/csidx.htm>. This surcharge is applicable to all rides that BOTH: 1. Begin and end in New York State, and that 2. Begin in, end in, or pass through the area of New York City in the borough of Manhattan, south of and excluding 96th Street (an area known as the Congestion Zone).

CATASTROPHIC EVENT SURCHARGE

Elite reserves the right to add a catastrophe surcharge in the event of either natural or man-made disasters from which the NYC metro region suffers extensive damages or closures to the infrastructure effecting transportation services . This may also include compensation to the drivers for long daily waits on gasoline lines in the event of a breakdown in the fuel distribution systems, hazardous road conditions, and hours of widespread traffic congestion. The surcharge would be passed in entirety to the franchisee for the extraordinary efforts and risks required to provide safe continued service to the client.

AIRPORT ACCESS FEES AT NYC AREA AIRPORTS: LGA, JFK, EWR
